**Limited edition SATAjet 4000 B Heart & Soul
– while supplies last!**

Unique and strictly limited: The spray gun SATAjet 4000 B Heart & Soul **in trendy fantasy tattoo optics** created by the US **airbrush artist Leah Gall** comes in a wild, emotional and cool design.

Its exclusive design sparkles with creativity making this spray gun quite unique.

Please note: The intricate finishing process of the spray gun surface could lead to slight colour deviations. Changes in colour, for example caused by exposure to daylight, are also possible.

In case that you think however that this fully functional spray gun is too beautiful to work with – it also looks very nice as a piece of **art in a showcase** or lends itself as a perfect gift to award to outstanding employees.
