

First Choice **For Perfect** **Results**

High performance paint spray guns
for professionals

- Finest atomisation – perfect finishes
- Optimised spray fan for high speed application
- Perfect ergonomics
- Easy to clean
- Increased profitability due to high transfer rates

SATAjet 3000 B – Future-orientated paint

SATAjet® 3000 B – Special Features

- Innovative nozzle concept for perfect colour match and perfect material distribution
- Wide, homogeneous spray fan with high work speed for high productivity
- Perfect for the application of both base and clear coat
- Suitable for waterborne paint
- Chrome-plated spray gun body for maximum corrosion protection – easy to clean
- Perfect ergonomics for fatigue-free working
- High transfer rate – low overspray

HVLP
The "SUPER SAVER"

RP
The "SUPER SPEED"

QCC™ cup connection – quick cup exchange, easy cleaning – only the original is equipped with the red ring.

SATA® QC™ Quick Change™ – quick air cap change with just one and a half turns.

Available option: **DIGITAL®** version – integrated pressure measurement and adjustment – indispensable for perfect colour match.

SATA® adam™ available as retrofit accessory – digital air micrometer to upgrade standard spray guns.

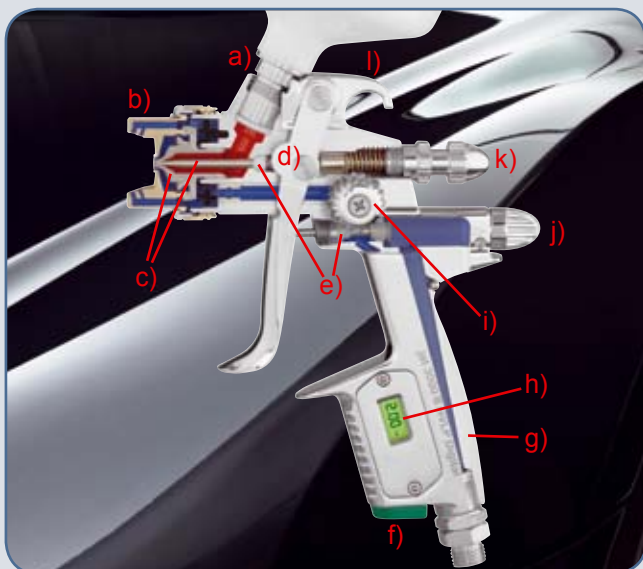

High Quality Painting

The SATAjet 3000 B paint spray gun can be used for a multitude of applications in various branches – especially where perfect finishes, application speed and profitability really matter:

- Car refinishing
- Commercial vehicle coating
- Industrial applications
- Carpenters

spray technology "Made in Germany"

Highly Elaborated Details

Cutaway model of a SATAjet 3000 B HVLP DIGITAL:

- a) QCC™ cup connection (bayonet) for rapid cup change, simple material filter location in the cup or the gun and ease of cleaning
- b) Air cap made of chrome-plated brass, with QC™ Quick Change air cap thread for quick exchange in just one and a half turns
- c) Paint nozzle and paint needle made of stainless steel
- d) Trigger with paint needle cover
- e) Self-adjusting packing at air piston and paint needle
- f) CCS™ clip for individual gun identification
- g) Ergonomically balanced spray gun body with easy-to-clean corrosion-resistant surface
- h) Digital pressure gauge for high colour match
- i) Round/flat spray fan control – easy adjustment with the thumb
- j) Air micrometer to adjust atomisation air
- k) Material flow control with counter nut
- l) Gun suspension hook

HVLP and RP: Two Ways, One Aim

Based on the habits, object and material, the painter has the choice between the **"Super-Saver" SATAjet 3000 B HVLP** and the **"Super Fast" SATAjet 3000 B RP**. Both versions (**HVLP low pressure** and **optimised RP high pressure technology**) provide a transfer rate of minimum 65 %.

SATAjet 3000 B: The efficient paint spray gun for painters with highest expectations concerning achievable finishes.
